ROLL SHAPER

ROLL SHAPER

Roll Shaper is a revolutionary device that has captivated the hearts of thousands of people worldwide. It is used for self-performing mechanical body massage, which simultaneously stimulates the lymphatic system and provides relaxation. As a result, it improves well-being and circulation, and also greatly supports both the reduction of fat tissue and cellulite, as well as the detoxification of the body.

Roll Shaper offers as many as 18 training positions, which allows for massaging every part of the body. Additionally, the device is equipped with infrared IR light, which improves the condition and appearance of the skin.

HEALTH AND BEAUTY BENEFITS

Exercising on the Roll Shaper is an excellent way to improve both health and body appearance. The first effects of the device can be experienced after just one training session!

Health benefits of training on the Roll Shaper:

- improved circulation,
- removal of toxins from the body,
- enhanced metabolism,
- alleviation of pain,
- decreased muscle tension,
- support for the immune system,
- overall relaxation of the body,
- body regeneration after training.

Esthetic benefits of training on the Roll Shaper:

- reduction of cellulite,
- slimming and sculpting the figure,
- reduction of fat tissue,
- reduction of swelling and puffiness.

A DEVICE LIKE NO OTHER

Roll Shaper is a versatile device that allows for massaging every part of the body, from feet to hands. It can be successfully used by many different people, regardless of their ailments or needs. Thanks to this, Roll Shaper enjoys immense popularity around the world.

What sets Roll Shaper apart from other rollers available on the market is the use of infrared light, which enhances the capabilities of the device. IR radiation, with a wavelength of 780-1400 nm, penetrates deeply into the skin tissue, and as a result, firms and smoothes the skin, reduces pain, and brings relaxation and tranquility.

The device will prove effective not only in a body shaping studio but also in a gym, spa, or rehabilitation center. It's an excellent solution for business owners who want to expand their offerings with the latest services and attract new customers!

TECHNICAL DESCRIPTION

- **In-house manufacturing**

Roll Shaper is an original project, executed from start to finish in our company's manufacturing facility. This gives us complete control over the entire production process, ensuring that every detail reflects our commitment and the expertise we continuously improve.

- **Rigorous testing regimen**

Every Roll Shaper device, just like our other equipment, undergoes thorough testing to guarantee reliability and durability over many years. By choosing this device, you can be absolutely certain that it will meet the highest quality standards.

- **Finest materials**

We prioritize the durability of our devices, which is why we take great care in the selection of materials. We choose only those that are long-lasting and reliable. Thanks to this, the Roll Shaper can serve for many years.

- **Guarantee of effectiveness**

The effectiveness of the technology used in our device is backed by extensive clinical research and numerous awards at Wellness & SPA fairs. We are confident that the use of Roll Shaper will meet the expectations of even the most demanding clients.

- **Comfort of use**

Part of the Roll Shaper's equipment is a comfortable stool, which has been specially designed to relieve the spine of the person exercising. Additionally, the stool makes it easier to perform exercises, making the training more enjoyable and effective.

- **Customizable colors**

We believe that a device should be not only functional but also aesthetically pleasing. Therefore, we offer a wide range of options for customizing its various components to suit individual preferences. Personalizing the color of the upholstery or the rollers will allow for the creation of a unique device that will match the individual style of the client.
