Built for Scale

Self-Guided by Design

Every product is built for fully clothed, intuitive use - delivering premium experiences without staff, training, or daily oversight.

Engineered, Tested & Proven

Validated through automated 24-hour testing, rigorous inspections, and life-cycle durability testing equivalent to 20+ years of real-world use.

Built for High-Traffic Use

Commercial-grade construction engineered to perform consistently at scale, day after day.

A Complete Wellness Portfolio

Massage, heat, cold, contrast, and mental wellness - designed as a connected system for modern wellness.

“From day one, our goal was simple: make recovery easier and more accessible for everyone.”

Our Latest Innovations

RedZone Sauna and PolarWave Dry Plunge expand our wellness offering with immersive heat, red light, and invigorating cold. Fully self-guided and built for high-traffic environments.

RedZone
Sauna

Red Light & Infrared Sauna

PolarWave
Dry Plunge

Cold Plunge Experience Without Getting Wet

Designed as a flexible ecosystem, our portfolio integrates heat, cold, massage, light, and relaxation into one connected system. Modular, plug-and-play solutions adapt to your space and scale with your growth across fitness, hospitality, campus, and workplace environments.

Warm Water Experience

Personalized warm water experience to promote relaxation.
Powerful waves of warm water target specific areas for a relaxing experience.

Heated Comfort

A soothing warm water experience after any activity.

On-Demand Relaxation

Enjoy a relaxing session in 15 minutes or less. No staff required.

Easy to Use

A simple touchscreen makes every session intuitive from start to finish.

Key Features

Pressure Control

Adjust from light, gentle to deep, pressure

Speed Settings

Slow to invigorating waves

Target Areas

Focus where you need it, from calves to neck

Accessible Design

Easy-access seating with comfort throughout

Red Light & Infrared Sauna

Delivers a comfortable, wellness experience in one efficient session. RedZone Sauna provides a comforting experience for tired muscles while supporting relaxation and overall well-being.

Heat + Light Together

Infrared warmth and red light combined to deliver two trusted wellness modalities in one efficient, session.

Modern Standalone Design

Its compact, all-in-one footprint delivers a premium wellness experience without requiring dedicated buildouts or complex installation.

Built For Frequent Daily Use

Purpose-built for high-traffic environments, RedZone Sauna runs reliably day after day with minimal operational oversight.

Key Features

Commercial-Grade Interior

Durable, moisture-resistant surfaces wipe clean quickly and stand up to daily use

Built-in Safety Controls

Smart alerts and timer compatibility help sessions run smoothly and reliably

Full Coverage Red Light

Targeted wavelengths for full exposure

Dual Infrared Heat

Far- and near-infrared warmth combined for a consistent, heat experience

Enhanced Heat Flow

Forced-air circulation helps deliver a noticeably warmer, evenly distributed heat experience throughout each session

Cold Plunge Experience Without Getting Wet

Cold plunge benefits – without the water. PolarWave delivers the invigorating effects of cold immersion in a clean, dry, fully self-guided environment, helping members feel recharged and revitalized while eliminating the mess and maintenance of traditional ice baths.

Dry Cold Experience

Enjoy the effects of a cold plunge without water, towels, or cleanup.

No Maintenance Hassle

No plumbing, draining, or daily upkeep - simply plug in and go.

Fast, On-Demand Sessions

PolarWave offers the invigorating, quick sessions make it easy to cool down and reset between workouts or during busy schedules.

Key Features

Immersive Cold

Head to toe cooling without water or mess

Compact Footprint

Standalone design fits easily into smaller spaces

Optional Compression

Boost the impact of cold in the legs by adding additional pressure

Self-Guided Operation

Simple controls make every session easy - no staff required

Quick Sessions

3-7 minute sessions fit easily between workouts or busy schedules

Adjustable Cooling

Choose from multiple cooling levels to match comfort and preference

Focused Cold and Heat

A cold and heat experience designed to compliment your post-workout routine. CryoLounge+ delivers targeted cooling and warmth in a comfortable, fully self-guided lounge - making it easy for members to relax, reset, and feel refreshed after workouts.

Targeted Cold Total Comfort

Apply cold exactly where you need it while gentle heat in surrounding areas keeps the session comfortable and relaxing.

Cold + Heat in One

Switch between cold and heat in a single session to leave you feeling refreshed.

Clean, Hassle-Free Sessions

Stay fully clothed in a dry, lounge-style design - no prep, cleanup, or staff required.

Key Features

Six Targeted Zones

Independently controlled zones deliver cold or heat exactly where you need it

Leg Compression

Built-in compression enhances comfort and compliments your post workout routine.

Auxiliary Zone

Auxiliary Pad included for hard-to-reach areas such as shoulders and knees

Contrast Mode

Easily alternate between hot and cold in different zones for a more effective experience

Self-Guided Operation

Intuitive touchscreen controls make every sessions simple and user-friendly

Relaxation Pod for Mind & Body

A private, immersive space designed to help users relax, reset, and refocus. RelaxSpace combines guided breathing, calming visuals, optional scent, and heated seating into a self-guided experience that supports overall well-being.

Immersive Visual Experience

A high-resolution display fills the user's field of vision with calming visuals that help quiet the mind.

Guided, Multi-Sensory Sessions

Breathing exercises, meditation content, scent infusion, and heated seating work together to create a structured reset.

Modern Design

A sleek, eye-catching pod that fits easily into wellness spaces with no complex buildout required.

Key Features

Heart-Rate Monitoring

Real-time feedback helps users stay mindful and track their relaxation throughout each session

Heated Lounge Seating

Gentle warmth enhances comfort throughout each session

Self-Guided Operation

Intuitive touchscreen controls make every session easy - no staff required

Guided Breathing & Meditation

Short, structured sessions help users relax and refocus

Vast Content Library

An extensive library of wellness, mindfulness, and educational content keeps each session fresh and engaging

Scent Infusion

Carefully selected scents enhance the environment, helping users relax more fully and return to their day feeling refreshed

Wellness Spaces for Your Business

Transform underutilized space into premium wellness experiences that drive engagement, revenue, and retention.

Drive Engagement

Give members more reasons to stay longer and come back often with modern, in-demand wellness experiences.

Grow Revenue

Add premium wellness services that create new monetization opportunities.

Simplify Operations

Self-guided solutions deliver high impact with minimal staffing.

Chosen by Top Operators Worldwide

Thousands of locations rely on WellnessSpace Brands solutions to deliver premium wellness experiences.

What Our Customers Say

"From an integration standpoint, WellnessSpace was plug and play. It layered seamlessly into our existing wellness ecosystem without disrupting operations, while elevating the overall member journey."

Annie Ostolasa
VP of Operations at
Villa Sports Fitness

"The CryoLounge is a game changer. It's plug & play with no staffing needed."

Michael Marquez
Operations Director
of YMCA

Game changing! This partnership has improved the student experience at IU Campus Recreational Sports and added to our toolkit to help improve the health and wellbeing of the IU Bloomington community. We saw over 12,000+ sessions the first semester!"

Josh Downing
Associate Director for
Programming at Indiana
University Bloomington

"We like data. We want to know what members use, how long they use it for, how often they use it... That really set you guys apart from the competition. The technology that WellnessSpace has with their equipment... it was top tier."

Brian Tietz
President of
Snap Fitness

[HydroMassage] is our most invigorating and relaxing massage we have at ARC, and athletes are over the moon."

Megan Cato
Wellness Coordinator
at Clemson University

"I have built or been involved in remodels or designs of thousands of gyms, and I would not build a club today without including HydroMassage."

Mike Feeney
EVP at
New Evolution Ventures

Technology & Support Built Around Your Business

Every WellnessSpace Brands product comes backed by an industry-leading technology ecosystem and a dedicated support team available seven days a week - from first installation onward.

Your Equipment. Connected and Monitored

Live support, proactive monitoring, and intelligent automation help keep your equipment running smoothly, with built-in tools that keep your team informed and in control.

- Technical Support Available 7-Days Per Week
- Network of 300+ Certified Technicians
- Online Diagnostics & Troubleshooting
- Real-Time Sensors & Proactive Alerts
- Customer Quick Support & Video App
